

DANHIL TRAVEL CARBON OFFSET

Every month, Danhil Travel offsets through Climaider.

The offsetting happens through measurable carbon reductions, verified by the strictest industry standards. Danhil Travel supports our portfolio of hand-picked high-quality projects.

Additional to the offsetting, Danhil Travel is also planting trees in the Climaider forest in Madagascar.

Through these projects, Danhil Travel contributes to the UN's SDG no. 13, Climate Action, as well as several other SDGs.

This certificate was issued on September 24, 2021.
